New Montero Sport unveiled at same prices

Mitsubishi Motors Philippines Corporation (MMPC) has unveiled a value-packed new Montero Sport 2020 with no price changes but higher growth expectation as the new SUV has already overcome the stigma it sustained from its previous model.

MMPC President and CEO Matsuhiro Oshikiri told reporters at the media launch Friday of the new Montero Sport is expected to sell 15,000 units for the entire of 2020 or 1,200 to 1,300 units a month. This is 10-15 percent higher than the annual sales of 12,000 units of the previous model.

Oshikiri said Montero has completely overcome the alleged "sudden unintended acceleration" hurled against the old model.

"Nobody is talking about it now," he said noting the new Montero is an entirely new model.

Despite the advanced features of the new Montero, Oshikiri said they maintained the old price range of P1.8 million to P2 million per model saying they already adjusted prices last year on account of the higher tax

on automobiles under the TRAIN Law.

Montero is also expected to maintain its 20-25 percent contribution in the overall MMPC sales.

According to Oshikiri, MMPC hopes to increase sales this year to 65,000 units from 62,000 units last year or between 8-10 percent growth.

Montero is third largest model of MMPC after Mirage and Expander.

For the entire industry, Oshikiri expressed confidence of 5-10 percent growth.

At the launch, Yoshiki Masuda, chief product specialist of Mitsubishi Motors Corp., discussed the new Montero Sport features that highlighted a more robust and powerful appearance providing the vehicle a tougher look complemented with a refreshed interior to deliver a luxurious and comfortable feel.

The new model is equipped with 2.4L MIVEC turbo diesel and an 8-speed automatic transmission delivers excellent environmental and smooth performance.

The new Montero also features the Mitsubishi remote control app that will send notification to the driver's smartphone to

lock the doors via the app when the driver leaves the vehicle with the doors unlocked.

The Power Tailgate can be opened or closed by smartphone. In addition, the tailgate reservation system can be preset by smartphone anywhere, which enables the driver to open or close the tailgate automatically when he/she approaches or leaves the vehicle.

It has also a new AC power outlet and easy to read 8-inch color LCD meter.

It also boasts of several safety features to provide its driver and its passengers peace-of-mind in every travel. These include lane change-assist and rear cross traffic alert functions, hill start assist and hill descent control, multi-view camera system that limits blind spots when parking the vehicle, and airbags.

The new Mitsubishi Montero Sport

will be available in 4 variants and 7 color options - white diamond, sterling silver metallic, titanium gray, medium red, jet black.

Transportify Offers 10-Wheeler Trucks on Its Logistics Platform

Transportify, the leading platform for delivery trucks and vans in the Philippines, continues to expand, now offering 10-wheeler trucks to conventional "big van" body. The 10-wheeler truck is now available for businesses to transport goods and cargo anywhere in Luzon and can be accessed on Transportify's mobile app or website.

Since opening in 2016, Transportify has changed the landscape of the ground logistics, specifically in the segment of delivery vans and small trucks, greatly enhancing business' ability for bulk deliveries within Mega Manila and Pangasinan. The company also offers long-haul services, which allows businesses to use the delivery vehicles on Transportify's platform to transport goods to all of Luzon. The new 10-wheeler truck service will be available to service deliveries with pickup within Mega Manila and Pangasinan and delivery to all of Luzon.

Businesses in the Philippines are eager to embrace technology because Filipinos always look for better ways of doing things with the new tools at their disposal. Logistics in the Philippines is particularly challenging relative to other countries because there are so many variables at play such as infrastructure, traffic, weather, varying rules in each city, multiple transport modes (land, sea, air). With this in mind, Transportify continues to innovate to provide greater value to business, increasing their logistics capabilities and efficiency, and to truck owners, increasing the income derived from their tracking assets. With the 10-wheeler truck, Transportify looks to build its presence in the long-haul space, providing greater transparency and efficiency to the industry.

The 10-wheeler truck on Transportify's platform enables companies to transport more cargo in just 1 booking with dimensions of L 900 cm by W 240 by H 240 and carrying capacity of up to 18 tons. Transportify expects that businesses will be using the 10-wheeler trucks to transport large commercial quantities of goods between factories, distribution centers, and points-of-sale with large storage requirements such as supermarkets. Deliveries to anywhere in Luzon using Transportify platform's 10-wheeler trucks come with the usual transparent and affordable pricing structure that is already enjoyed by all Transportify's customers. The rates are distance-based, rate starting at PHP 4,200 and an additional PHP 85 per kilometer thereafter. The rates are inclusive of driver, one helper, fuel, GPS tracking and a 24/7 customer service center to address any concerns. Businesses can also avail other value added services such as return of paper documentation or proof-of-delivery.

Interested to know more about how Transportify can help your company? Email: business@transportify.com.ph

Transportify offices:
Manila HQ: Tycoon Center Building 21/F Pearl Drive, Ortigas Center Pasig City
Pangasinan HQ: CBL Building 2nd Floor, Unit 2-04, MacArthur Highway, Cor-16 Subdivision, City of San Fernando.

DA introduces new loan for rice farmers

MADLAINE B. MIRAFLORES

The Department of Agriculture (DA) has launched another credit facility for rice farmers which will be administered by DA's Agricultural Credit and Policy Council (ACPC) and the Development Bank of the Philippines (DBP).

But, the DA noted that only eligible cooperatives endorsed by DA through the regional field offices may avail of the credit line.

In a statement, Agriculture Secretary William Dar announced the installation of another credit facility under DA called BuyANihan, which will provide working capital to cooperatives so they could intensify their palay procurement.

The loan amount will be based on the maximum inventory level of their warehouse capacity.

The first recipient of BuyANihan is Nueva Segovia Consortium of Cooperatives, which obtained a three-year loan that has an interest rate of 2.5 percent per annum.

Dar stressed that the loan, which amounts to P200 million, must be used in buying palay from farmers and members of the cooperative in Ilocos Sur and nearby provinces.

As such, the DA chief urged the farmers to come together and form organized associations and showcase collective action at the grassroots level.

"Join associations so you will have more leverage," Dar told the farmers. "Do not do things alone."

According to him, forming associations and cooperatives in farm sectors is the "way

forward" because this can help farmers establish partnership with large businessmen.

"Once you are strong, you can partner with businesses to have economies of scale," he further said.

To recall, the DA, through the Philippine Center for Postharvest Development and Mechanization (PHilMech), is also requiring farmers to be in a cooperative before they can benefit from the mechanization efforts of the government under Rice Competitiveness Enhancement Fund (RCEF), which is where all the tariff collected from imported rice should go.

"It would be easier for PHilMech to deploy or distribute farm machines in the 1,200 municipalities in the country if the rice farmers there are organized," PHilMech Executive Director Baldwin G. Jallorina said.

Before it can receive a set of farm equipment, each of the municipality should have a viable farmers' organization with at least 100 hectares of irrigated rice lands. This means that if you are an individual farmer who does not belong in a cooperative, you will not benefit from this program at all.

Meanwhile, aside from BuyANihan, the DA has launched the SURE Ad loan program under ACPC in August, which extends a one-time P15,000 financial aid to rice farmers with one-hectare or less farm area. The zero interest credit is payable in eight years.

DA is also extending financial support to provincial governments that have adhered to the call of the DA chief to support the local rice farmers. The fund may be used for buying palay and setting up a value-chain sys-

tem in the provinces to assist farmers in production, post-harvest, processing, and marketing of their produce.

Farmers all over the country are now being forced to sell their rice at a loss, with imported rice taking over the market.

As of the second week of September, farm-gate prices of palay are still on a downtrend, falling by 30.1 percent year-on-year from P23.14 per kilogram (kg) to P16.18/kg. This is a decrease of 0.6 percent week-on-week from the price level of P16.28/kg.

NOTICE OF REDEMPTION OF SERIES 2A PREFERRED SHARES (PRF2A)

Notice is hereby given that Petron Corporation (the "Company") will redeem all Series 2A Preferred Shares listed in the Philippine Stock Exchange (Stock Symbol "PRF2A") on November 4, 2019 (the "Redemption Date") at a redemption price of One Thousand Pesos (P1,000.00) per share, in accordance with the terms and conditions of the Series 2A Preferred Shares. The redemption of the Series 2A Preferred Shares was approved by the Board of Directors of the Company on March 12, 2019.

The redemption price of the Series 2A Preferred Shares and all accumulated unpaid cash dividends due on the shares shall be paid on Redemption Date to all stockholders of record as of October 10, 2019. To clarify, the Redemption Date is set on November 4, 2019 because the fifth anniversary of the listing date of the Series 2A Preferred Shares, which will be on November 3, 2019, falls on a non-business day.

The notice of redemption of the Series 2A Preferred Shares will be sent to all stockholders of record as of October 10, 2019.
