

PETRON MOTOR OIL

DESCRIPTION

PETRON MOTOR OIL is a premium quality oil suitable for passenger cars running under mild service conditions. It gives the engine protection against sludge, wear and rust.

PROPERTIES

- Protects engines against low temperature sludge formation and rust
- Provides excellent detergency in the engine
- Resists formation of carbon deposits
- Provides satisfactory performance in either high speed, over-the-road or stop-and-go service due to good thermal stability

GRADES

- SAE 30 and 40

APPLICATIONS

- Gasoline and diesel engines of passenger cars
- Recommended only for short oil drain interval applications

QUALITY LEVEL

- It has the performance profile of:
 - API SD/CC
