

SECURITIES AND EXCHANGE COMMISSION

SEC FORM 17-C

CURRENT REPORT UNDER SECTION 17 OF THE SECURITIES REGULATION CODE AND SRC RULE 17.2(c) THEREUNDER

1. Date of Report (Date of earliest event reported)
Jun 10, 2026
2. SEC Identification Number
31171
3. BIR Tax Identification No.
000-168-801
4. Exact name of issuer as specified in its charter
PETRON CORPORATION
5. Province, country or other jurisdiction of incorporation
Philippines
6. Industry Classification Code(SEC Use Only)
7. Address of principal office
San Miguel Head Office Complex, 40 San Miguel Avenue, Mandaluyong City
Postal Code
1550
8. Issuer's telephone number, including area code
(63 2) 8884-9200
9. Former name or former address, if changed since last report
N/A
10. Securities registered pursuant to Sections 8 and 12 of the SRC or Sections 4 and 8 of the RSA

Title of Each Class	Number of Shares of Common Stock Outstanding and Amount of Debt Outstanding
COMMON (PCOR)	8,911,446,400
PREFERRED SERIES 3B (PRF3B)	6,597,000
PREFERRED SERIES 4A (PRF4A)	5,000,000
PREFERRED SERIES 4B (PRF4B)	2,995,000
PREFERRED SERIES 4C (PRF4C)	6,005,000
PREFERRED SERIES 4D (PRF4D)	8,500,000
PREFERRED SERIES 4E (PRF4E)	8,330,000
PCOR SERIES F BONDS DUE 2027 (IN PESOS)	9,000,000,000

PCOR SERIES G BONDS DUE 2030 (IN PESOS)	15,910,000,000
PCOR SERIES H BONDS DUE 2032 (IN PESOS)	4,604,000,000
PCOR SERIES I BONDS DUE 2035 (IN PESOS)	11,486,000,000
TOTAL DEBT AS OF DEC 31 2025 (IN MIL PESO-CONSO)	218,198

11. Indicate the item numbers reported herein

Subject of News Report	"Petron to expand Bataan terminal to boost aviation fuel capacity"
Date of Publication	Jun 10, 2026

Clarification of News Report

We write in response to your request for clarification and/or confirmation of the news article entitled "Petron to expand Bataan terminal to boost aviation fuel capacity" posted on bworldonline.com on June 10, 2026. The article was stated in part that:

"PETRON CORP. is planning to expand the storage capacity of its Limay, Bataan terminal to boost aviation fuel supply and reduce the risk of shortages amid rising demand for Jet A-1 fuel.

In a filing with the Department of Environment and Natural Resources, Petron proposed increasing the terminal's capacity to 32.79 million liters from 20.75 million liters.

....

The expansion plan includes the installation of additional storage tanks to hold fuel temporarily during maintenance or repair of existing tanks, improving operational flexibility and supply reliability.

Petron also plans to build an above-ground storage tank for coconut methyl ester (CME), a biofuel derived from coconut oil used in diesel blending requirements.

....

Petron did not disclose the estimated cost of the expansion project.

...."

We confirm that Petron Corporation (the "Company") is exploring the installation of additional storage facilities for fuel products and biodiesel at its terminal in Limay, Bataan (the "Limay Terminal") as part of its continuing effort to improve reliability of supply of various fuel products and the efficiency of its operations.

The Company is prioritizing one storage tank with a capacity of 25,000 barrels as additional storage for jet A1 fuel (the "Jet A-1 Storage Tank") and three (3) additional CME storage facilities with a total capacity of 48,000 liters (the "CME Storage Tank") and, as a preliminary step, the Company has initiated the Environmental Impact Assessment process for the amendment of the Environmental Compliance Certificate ("ECC") of the Limay Terminal, with the conduct of the Information and Education Campaign in late March 2026 and the public scoping scheduled on June 17, 2026.

The Limay Terminal is a key distributor of jet A-1 fuel to airports and other terminals. The Jet A-1 Storage Tank will increase the total days of supply of jet A-1 at the Limay Terminal to meet the growing demand for jet A-1 fuel and provide supply even during periods of high demand. The CME Storage Tank will allow the Company to maintain at the terminal a consistent supply of biodiesel to comply with the government-mandated blending.

The commencement of the construction of the above storage tanks is targeted in the later part of 2026 and the completion of the construction is targeted in early 2028. The investment amount for the proposed project, which will be funded from cash generated from operations, will be finalized and the applicable internal corporate approvals will be obtained once the ECC is obtained.
